

1. Čti nahlas a pozoruj:

$$6 + 3 = 9 \quad 2 + 6 = 8$$

$$16 + 3 = 19 \quad 12 + 6 = 18$$

$$3 + 5 = 8 \quad 2 + 7 = 9$$

$$13 + 5 = 18 \quad 12 + 7 = 19$$

2. Vypočítej:

$$12 + 5 = \quad 11 + 5 = 16$$

$$14 + 4 = \quad 13 + 3 =$$

$$15 + 3 = \quad 11 + 6 =$$

$$11 + 8 = \quad 13 + 4 =$$

$$16 + 3 = 19 \quad 10 + 10 = 20$$

3. Znázorni na číselné ose, vypočítej:

$$12 + 4 = 16$$

$$17 + 2 = 19$$

$$14 + 4 =$$

4. Najdi 5 rozdílů:

5. Vybarvi stužky podle návodu od nejkratší po nejdelší:

6. Přepiš do sešitu a vypočítej:

$15+4$	$15-4$	$12+7$	$19-9$
$16+3$	$12-1$	$11+8$	$18-8$
$17+2$	$14-3$	$13+6$	$20-10$
$15+3$	$14-2$	$14+4$	$17-7$
$17+1$	$15-3$	$12+6$	$16-6$

7. Vypočítej:

$$\begin{aligned} & \overset{10}{(4+6)} + 9 = 19 \\ & \overset{10}{(2+8)} + 10 = \underline{\hspace{2cm}} \\ & \overset{10}{(5+5)} + 8 = \underline{\hspace{2cm}} \\ & \overset{10}{(19-9)} - 7 = \underline{\hspace{2cm}} \\ & \overset{10}{(16-6)} - 10 = \underline{\hspace{2cm}} \end{aligned}$$
